“ *Denny had a love hate relationship with technology but it made him love his local public library. I was honored to get to know Denny (and help him with cellphone issues, facebook how tos, and word processing many minutes and flyers from the boards and groups he was in) when i was librarian at the Rockford Public library from 2006-2019. He was on city council when i started and my boss pressed the city to remediate mold in the basement. Denny learned of the situation and it got done within two weeks. Denny was a big man with an even bigger heart from his community and he will be terribly missed. now keeping the scoreboard in heaven!*

I got to know Denny through my brother David Peterson. He would always come to our family gatherings and was always welcome at them. He will be missed. I am sorry I cannot make it to his services but my thoughts are with him and I know my daughter will be greeting him in heaven.
